**ISO 9001- 2015 5.2.1**

**QUALITY POLICY STATEMENT.**

Carmet Marine Services is a specialist marine and offshore service provider. It prides itself on delivering a quality service on time and to budget for the marine and offshore industries and in addition to its' bespoke ship-repair capability.

The Company's base located at the their Shipyard Facility, Bromborough on the River Mersey has the infrastructure to deliver products and services to the global commercial, marine, and renewables markets.

By investing in both in its' human and operational resources, the Company is able to meet Aims and Objectives to continually improve the quality of its work and services and enhance the internationally recognised business.

We believe we can accomplish this goal by listening to our customer's requirements and translating those needs into continuously improved products and services.

It is also recognised that a key element in the successful achievement of these objectives is maintaining of a clearly defined Quality Management System. In supporting this, the Quality Management System meets and sustains our conformance to ISO9001:2015.

In addition to the Quality Management System the Company complies with all applicable Laws, Customer, Statutory and Regulatory requirements and Corporate Policies.

The setting of business targets and quality objectives are implemented and reviewed through the Management Review.

The Managing Director is responsible for ensuring that the Quality Policy is understood, implemented, reviewed and maintained at all levels. To ensure that all employees are aware of this policy it is posted on notice boards around the site and is available for viewing electronically on the Company network.

The Quality Management System will be subject to regular audit and review to ensure its continuing efficiency and applicability to the business. As the system evolves and improves, personnel as required who have a direct effect on quality will be retrained to ensure their continuing awareness and competence in quality controls and processes.
